Turnitin - D2L Dropbox

Provides a similarity report with a percentage score of matching text
Does NOT determine plagiarism

- Use for writing assignments submitted to Dropbox
- Flags text similar to several sources in Turnitin database
- Provides a similarity or originality report

Best Practices:

- Create a Draft Dropbox folder for students to check their own work *(Introduce any new technology in the beginning of the semester)*
- Encourage students to check

- **Faculty**: for informed evaluation of student work
- **Students**: to improve their writing skills on their own
