

# Any New Technology

Introduce in the first two weeks

- any new technology being used in your course at the beginning of the semester
- make it easy both for the instructors and students

Why?

- for students to get acquainted and feel comfortable
- to iron out any issues that might occur

What?

- Respondus Lockdown Browser, Respondus Monitor, Turnitin, Zoom recording, Audio recording, any presentation software etc.

How? - Provide a practice exercise

Example: *If students are required to submit a video recording of their final presentation*

- Create a short assignment to be submitted to the discussion area
- Award a few points for motivation
- Make students use the technology to introduce themselves
- Let students discuss with each other their experiences
- Help them fix any issues ahead
